Chemistry 2624-8549

Chemistry—An International Journal è una rivista internazionale di chimica, sottoposta a peer-review e ad accesso libero, pubblicata mensilmente online da MDPI. Raccoglie contributi dove la chimica “la scienza centrale” dialoga con la biologia molecolare, la scienza dei materiali e gli studi atmosferici.

Chemistry—An International Journal is an international, peer-reviewed, open-access journal of chemistry, published monthly online by MDPI. It brings together contributions in which chemistry – ‘the central science’ – engages with molecular biology, materials science and atmospheric studies.

Rivista specialistica

**Applied earth science: Transactions of the
Institution of mining and metallurgy: section B
2572-6846**

Applied Earth Science: Transactions of the Institutions of Mining and Metallurgy (Section B) è una rinomata rivista scientifica internazionale sottoposta a peer-review pubblicata per conto dell'Institute of Materials, Minerals and Mining (IOM3) ed è edita da SAGE Publications.

La rivista incentrata sull'applicazione delle scienze della Terra nell'esplorazione, scoperta, sviluppo e sfruttamento delle risorse minerarie. Si rivolge a geologi minerari, esperti di esplorazione e ricercatori nel campo delle geoscienze.

Applied Earth Science: Transactions of the Institutions of Mining and Metallurgy (Section B) is a renowned international peer-reviewed scientific journal published on behalf of the Institute of Materials, Minerals and Mining (IOM3) and edited by SAGE Publications.

The journal focuses on the application of Earth sciences to the exploration, discovery, development and exploitation of mineral resources. It is aimed at mining geologists, exploration specialists and researchers in the field of geosciences.
